Customer Case

Borealis

What Gamified Training Means for Borealis

- **Sector:** Borealis is one of the world's largest suppliers of advanced, sustainable polyolefin solutions and a leading European producer in polyolefin recycling and base chemicals.
- **Employs:** around 22.300 employees worldwide
- **Uses Play it solutions:** To create a safer environment for employees without putting them in a dangerous situation.
- **Benefit:** The safety trainings allow Borealis to simulate unsafe situations, without the dangerous risks for its employees. By making use of gamified safety training in a virtual world to help employees relate to the content, the company is faced with less safety incidents.

Reduction
of incidents
with 30%

“

By focusing on the human side of safety, embracing innovative training methods like game-based learning, and involving employees at every step, we created a scalable, impactful program that drives long-term behavioral change and enhances workplace safety, leading to a reduction of incidents with 30%

Koen Colpaert | Group HSSE at Borealis

”

Customer Case

Recticel

What Gamified Training Means for Recticel

- **Sector:** Belgian insulation group with a strong presence in Europe and USA
- **Employs:** more than 1.300 people
- **Uses Play it solutions:** to create awareness of their safety guidelines, the company's 'Golden Rules', among the staff.
- **Benefit:** The safety trainings allow Recticel to simulate unsafe situations without the real-life consequences for its employees. By making use of gamified safety training to help employees relate to the content, the company is faced with less safety incidents.

“

Play it Safe transforms risk training. Its innovative approach and immense potential are well-received, resulting in significant time and efficiency gains, reducing our lost time incidents from 4 to 0.

Dave Declercq | Safety & Facility Manager at Recticel
