COMPANY PURPOSE

“We enable the fastest, most authentic learning experience for employees and consumers.”

Employees

instantly share
peer-to-peer
know-how.

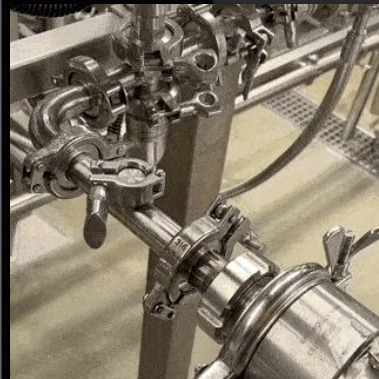

any
where

any
language

any
device

Choose **the right side**
for loosening with the
torque wrench.

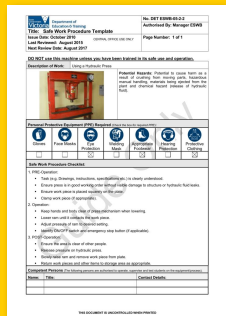

Open the clamps on
the High Shear Mill
and remove the green
rubber.

PROBLEM

Organisations struggle to share knowhow between workers and to consumers

Employees need to know how to do their job, but fail to get proper training and guidance in the way that fits their needs. This dramatically impacts productivity, downtime, quality and efficiency.

Where is the solution that is shopfloor friendly?

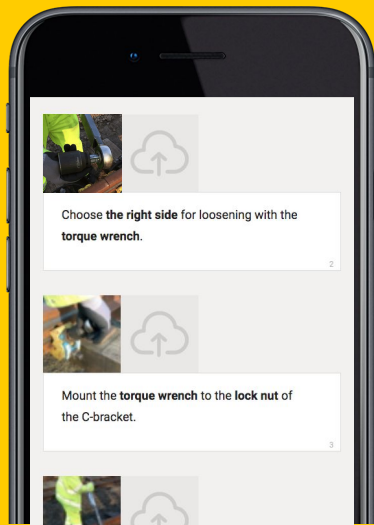

“They spent €1 million on this machine and gave us Post Its to operate it.”

SOLUTION

A platform where any can easily create, share and read video-based instructions.

Create an instruction in just a few minutes, from any device.

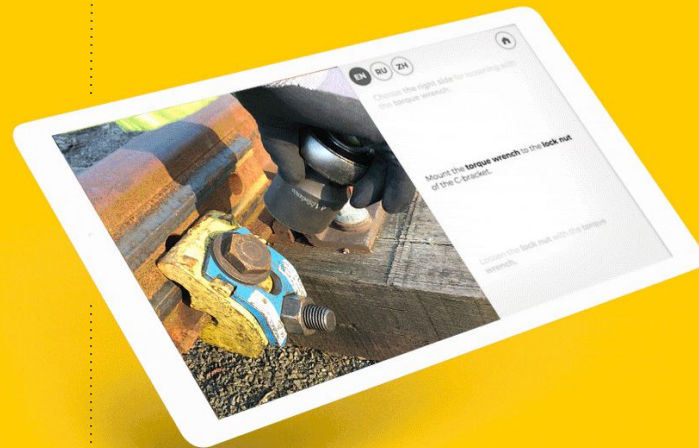

Share as a URL or QR code that you can print on a device.

demo.manual.to/rail

Read in any language, on any device, with short video.

TESTIMONIALS

Customers are loving Manual.to

With **Manual.to** we were able to get our new coffee plant up and running in no time.

—
Emmeke Spoorenberg, Project Manager
Organisational Development

Manual.to reduces the time to onboard an employee with 86% and staff stay with us longer.

—
Alco de Heer, Plant Manager

Manual.to provides Audi new car owners with a better first time user experience

—
Thibaut Debelle,
Innovation Manager

One more thing we love about **Manual.to** is how easily it integrates with our MES system.

—
Steven Van Den Rijse,
Quality & OPEX Manager
