- THE XR TRAINING COMPANY -

Bringing your workspace into XR

Bert Waltniel

Founder – Rhinox

— About

Bert Waltniel is an Augmented Reality /Virtual Reality specialist. He started his career as IT consultant at IBM, before moving on to provide technical guidance for large enterprises. Driven by a mission to provide technology as a business solution.

Bert helps people and/or businesses to achieve new business goals using the latest technology. For the last several years, Bert has gained experience in Virtual Reality, Augmented Reality and Artificial Intelligence in different roles(Sales, Project Management, Consulting).

The **Rhinox** mission

Bringing your Workspace into XR

Expert team

Rhinox is a talented team of engineers, developers and designers, ready to tackle your problems.

Our 3 services

Visualize

Show

Simulation

Show +
Interact

Training

Show +
Interact +
Measure

VOLT

Plan and evaluate/test your workspace/product even before it is built

Will it fit?

Does it match our process?

Safe?

Cost effective?

Correct color?

Correct layout?

Simulate your workspace/product even before it is built

Stakeholder management
Virtual tour
Marketing

Train your people in your workspace even before it is build

Safe

Fast & Effective

Parallel

Motivating (gamification)

Data driven - learn from learners - optimisation

And zero impact on current production

Case Time!

Rhinox Overview Solution

SBM - Building scaffolds in VR

Rhinox – Borealis - Safety

Rhinox – Borealis - Safety

BOREALIS

☐ 01. Suction valve is closed

☐ 05. Blindings not in open position

☒ 07. Oil level is too low

☐ 09. Pressure gauge is not connected on the suction side

☐ 14. Blind cover at flushing connection is open

☐ 19. Flooded the pump and forgot to bleed [Red path]

☐ 03. Clutch guard missing

☐ 06. Drains are still open

☐ 08. Pressure gauge is not connected on the pressure side

☐ 12. Suction strainer is partly blocked

☐ 19. Flooded the pump and forgot to bleed [Green path]

Start

Start without PPE

Employee training

Mediamarkt: world of products - desktop/smartphone + VR application

Rhinox lab is our place where we experiment,
r&d, and weird computer art.

We research deep and integrated to experimental and innovative technology solutions that work equally well for businesses as for people. Where we answer questions like:

- How to automate content creation?
- How training/support looks in AR?
- Adaptive learning/personalized work instructions?
- Stress management in learning
- How will 5G impact the architecture?
