- A mobile frame on wheels to move the studio around a room.
- A detachable top to be placed on a table, desk or tripod.

Kenmerken

RECORDING MODES

Choose from the variety of recording modes: chroma key, augmented reality, picture in picture, speaker resize, avatar, and more!

DIGITAL PROMPTER

Prompter mode means you never have to memorise your text and lets you focus on what's essential, your presentation. Adjust the scroll speed and font size to suit you.

AUTOMATIC SUBTITLES

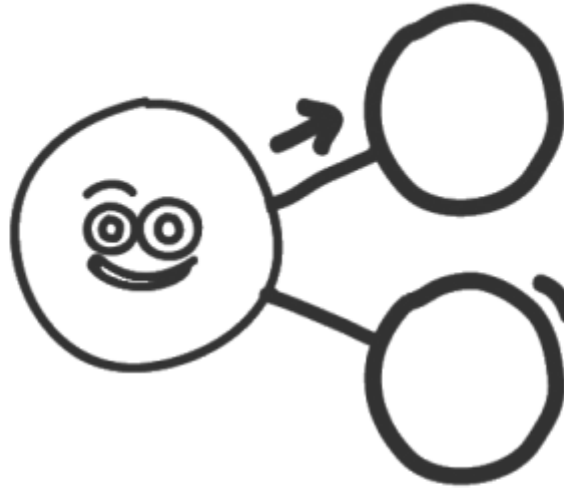

The studio will automatically transcribe the prompter text into subtitles as soon as your recording has ended. This saves valuable time when it comes to translation and improves accessibility.

Kenmerken

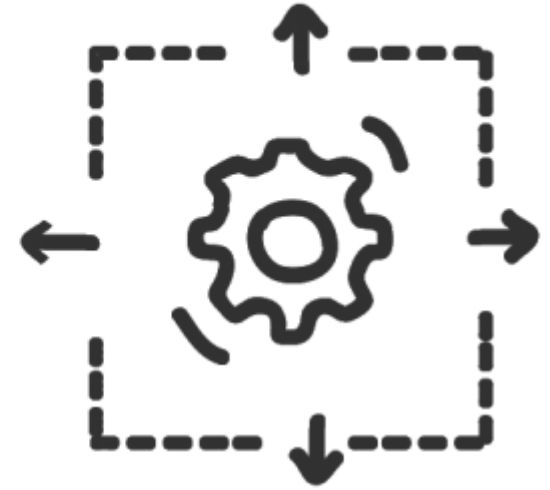

POST-PRODUCTION

The studio's built-in post-production will edit, cut and paste, add credits, add subtitles, and merge videos. All your content will be ready to share as soon as you finish recording.

SHARE & PUBLISH

After you finish recording, publish your video directly onto your preferred platform or save it on your USB stick.

AUTO-FRAMING

Ensure none of your gestures are missed by choosing the best pre-setting.

Kenmerken

LIVE

Broadcast your events live on video platforms such as Skype for Business, Zoom, BlueJeans and Facebook Workplace.

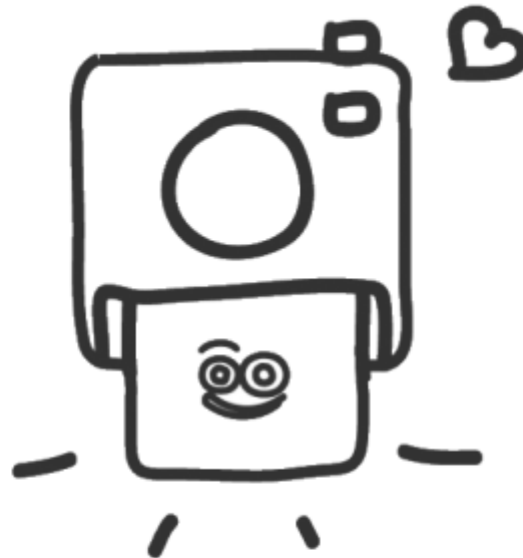

PHOTO BOOTH

Take a photo with your favourite background: alone or as a group, with or without accessories.

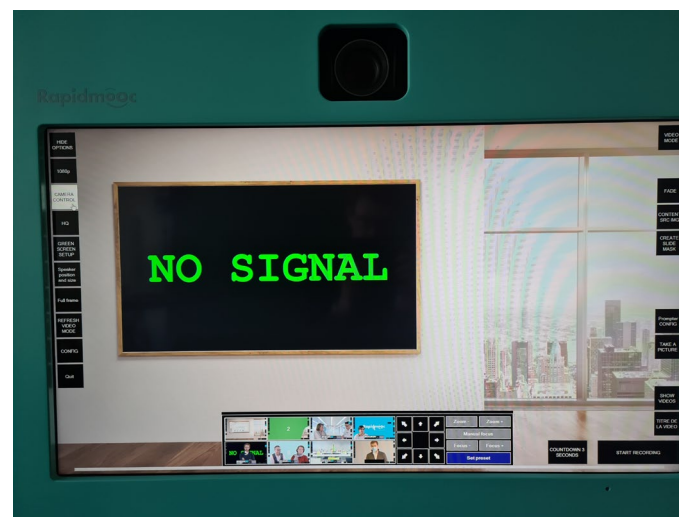

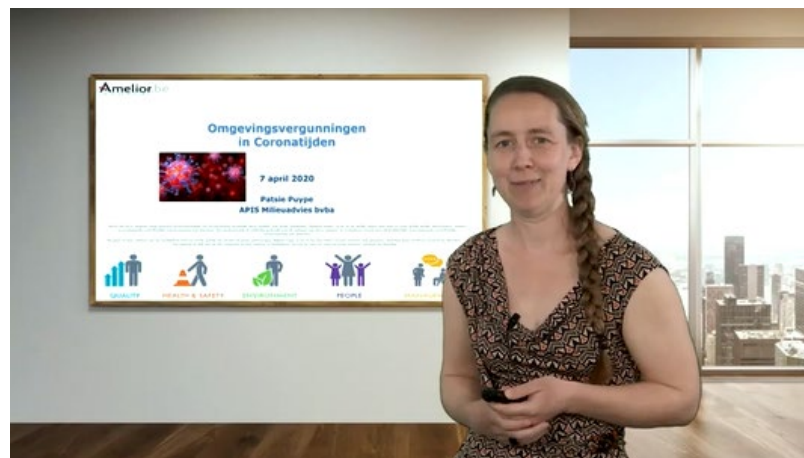

PROGRAMMED PRODUCTION

Bring your videos to life with the studio's automatic controls: add/remove overlay, camera shot, stop recording, etc.
